42.30 - Explaining the built-in 'Smart Preflight' demonstration profile
44.00 - Explaining the Variable Set used for the ‘Jan’ issue using ‘Rules’
46.00 - Showing the ‘Jan’ Variable Set and Preflight Profile and reviewing the results
48.00 - Questions from the Participants
49.00 - Q: Is there a way to lock/unlock elements on a page?
   A: Not currently.
50.00 - Q: Is there a way to select objects with the same fill/stroke?
   A: Yes, the 'Select Similar' tool. Demonstration on how to use it.
51.40 - Q: How can I change the Ink Density of an Image?
   A: Not directly, but you can use a DeviceLink Profile to do this if you have one.
52.50 - Q: How can I assign objects to a specific layer?
   A: Definitely, very easy with a simple Action list based on a selection
   Also an overview of some of the default Action Lists that use Layers

END
